For winter use, beets are occasionally sown now, and also cucumbers for pickling purposes; but not often; and, at any rate, it must be attended to early in the month. Tomatoes trained to stakes give the sweetest fruit, and remain in bearing the longest; but many cultivators, who grow for size and quantity only, believe they have the best results when growing them on the level ground. Celery is the chief crop requiring attention. The great point is to get short thick-growing varieties, as the long kinds require so much more labor to blanch. There are now a number of new candidates, and people will try these varieties as they try new fruits. After so many trials with different ways of growing them, those who have their own gardens--amateurs, for whom we write--find that...
