Children have become more concerned with the opinions of their same-age peers rather than those of their parents. Some challenges are unique to America, they include: "the culture of disrespect/the culture of the Live for Now", The heavy use of powerful psychiatric drugs being used on our children, and the overscheduling of our parents that make it hard for parents to do their jobs in raising their children. In The Collapse of Parenting, Sax shows how certain factors of this damaging concept have led the kids and teenagers of today down a road that has left them less resilient, more likely to become depressed or anxious and less physically fit. More importantly he poses solutions to these problematic challenges of parenting.
