Date :2009-12-1. With the implementation of the new curriculum reform. teaching methods are being taught by the static knowledge to dynamic text dialogue. collaboration and students change. learning ways acceptance by a single memory to the discovery and exploration and change. This requires teachers to become students all the help. guide. facilitator and collaborator. a curriculum resource developers. a reflection of the practitioner; all this requires teachers not just Spring Silkworms and the tapestry of people; not then cast to the fish itself experienced teachers. and teach him to fish should be the scholar-teacher. In order to achieve all this. we must enhance teachers' professionalism and expertise. each teacher in their own process of learning while teaching. edge research. while the improvements in educational practice and research to promote their professional development. Well-known educator Suhomlinski said: If you want the teacher's labor to bring joy to the teachers. so that every school from becoming a tedious obligation. then you should go for every teacher to guide research on this path of happiness. teacher professional development research is a booster course of the study. teachers in the task-driven. forced himself to learn much more. to much more consciously develop their own reason. change their accustomed ways of thinking and behavior. and gradually develop learning. speculation. study habits. professional competence of teachers in the study development. the teacher's wisdom. the growth in the study. the value of teachers in the study of sublimation. Teachers in the teaching of research. teaching in the study will help teachers make good use of new materials. practice the new curriculum. to help with the teaching of scientific methods...
