Lexington Books, United States, 2005. Hardback. Condition: New. Language: English . Brand New Book. Dialectical thought is at the core of Karl Marx s work and all subsequent attempts to build on his legacy: Marxism. And, arguably, Marx s special departure into dialectics represents an anomaly in that tradition and all of Western philosophy. Marxism finds its philosophers in the academy; in trade unions; in former soviet states; in industrial and non-industrial nations and this makes it distinct from all other modern philosophies. It is certainly the most international modern philosophical movement. Chinese Dialectics From Yijing to Marxism is an unparalleled investigation into the conversation between Western Marxism and Chinese, or Eastern Marxism. An autochthonous version of Marxism persists in China coming to fruition through the work of Mao Zedong. Chenshan Tian contends that the conversation between Eastern and Western Marxism results in a striking feature of dialectics that pervades the everyday thinking and speech of ordinary persons in China. No study to date has undertaken the task of tracing the development of Marxism in China through it s ancient philosophical texts. This book is absolutely essential reading in the disciplines of comparative political theory, philosophy, and Asian studies.
